

LEADERSHIPITE—AN INVESTMENT IN THE FUTURE OF TRANSPORTATION

Your investment in *LeadershipITE* will ensure that the community of transportation professionals is positioned to engage and shape the future of transportation. As Baby Boomers continue to retire, leadership roles in the public and private sectors need to be filled with professionals who are equipped to communicate effectively, lead multigenerational teams and collaborate across a variety of professions to facilitate achievement of safe vibrant communities.

Who are your organization's future leaders?

LeadershipITE was developed to identify those ready to serve, then hone their critical leadership skillset through interactive workshops and training, teambuilding activities and networking opportunities. *LeadershipITE* benefits the transportation profession by developing the next generation of leaders to serve your organization, agency and community.

Sponsor *LeadershipITE*—Make your investment in the future.
