

Establishing an ITE Student Chapter

- Initiate communication with your District Board (contact ITE HQ for current information).
- Collect and forward to your District Board the following items:
 - Description of your institution's transportation, traffic engineering, planning, and ITS programs; or related course and degree programs
 - A list of five student ITE members who are petitioning to form the student chapter
 - A copy of adopted Bylaws (see attached for a sample chapter Bylaws)
 - A copy of the chapter charter to be filled out by District President/Chair (see attached for a sample chapter charter)
 - The host institution must have on faculty an individual, who is a current member of ITE, or eligible for membership in ITE at the Member level or higher, to serve as the student chapter faculty advisor. For those faculty members who are not current members of ITE, a voucher program exists that can be used toward first year dues, publication orders, or registration fees to ITE conferences.
- The District Board will consider the petition and supporting documents. If the student chapter is approved, the District Board will forward a completed student chapter charter and supporting documents to ITE headquarters for filing.
- Once received at ITE headquarters, the student chapter will be added to the ITE system (membership database and website).
- Chapter officer information should be forwarded to ITE headquarters each year.
